Jet-Ships A.S	Developing the legal and financial framework for a new ferry service between Norway and Germany
LMPC, Switzerland	Operations manuals for both on- and offshore drilling operations Conversion of a large number of supply vessels to handle baryte and cement at acceptable transfer speeds The design of mud and pneumatic handling systems, which were subsequently installed on over 30 drilling rigs
Merewido B.V., Netherlands	Design of pneumatic handling systems
Minijos Nafta, Lithuania	General technical, logistical and commercial advice on field development, including oil sales

Project List (continued)

Mobil Exploration Norway Inc., Stavanger	<p>Negotiation with the Norwegian government of tax depreciations for the marine chartering programs</p> <p>Development of the logistical program for the first 10-year period (1977-87)</p> <p>Two stages of chartering programs for the contingency services, including conversion of 6 ships</p> <p>Development of contingency plans for use of flotels at Statfjord, including obtaining approvals from NPD</p> <p>Development of the concept for dry evacuation</p> <p>Development of platform-based anti-collision radar</p> <p>Development of fire-fighting requirements for Statfjord platform blow-out and negotiating the proposal with NPD</p> <p>Development of financing package for Statfjord B platform</p>
Multi Operational Service Tankers Inc.	<p>Development of patent for non-rotating underbalanced drilling from a DP-tanker</p> <p>Assisting in negotiations on financing the company with a view to be listed in the stock market in Oslo</p>
Northern Resources Ltd	<p>Planning for the development of a mine in permafrost</p> <p>Development of ice-breaking technology with the M/V Arctic and hovercraft</p> <p>Development of project financing package based on coal sales to Denmark</p> <p>Geological assessment and acquisition of chromite licence in Greenland</p> <p>Development of cold fines/water mixture as less polluting (than oil) source for power generation</p> <p>Development of logistics for a number of projects in the Canadian arctic for oil and mineral extraction</p>
Odin Energi AS, Denmark	<p>Evaluation of development potential of Danish oil and gas acreage.</p>
Petraco S.P.A.	<p>Advice on financing Russian oil and gas developments</p> <p>Purchase agreements of crude oil from Lithuania</p>
Quatronor A.S	<p>Preparing tenders and negotiating re-usable production system for offshore oil and gas developments</p>

Project List (continued)

CLIENTS	PROJECTS
Sadkora Energy AB	<p>Development of technical and financial plan for a number of oil fields in the FSU</p> <p>Evaluation of mini-refinery project in Poland</p>
Sonangol	<p>Technical and financial audit of all oil and gas operations in Angola</p> <p>Negotiate with operators to implement a 13 USD/bbl price cap for deduction of expenses</p> <p>Investigation of an 89 MUSD blow-out in Kabinda</p>
Stolt-Nielsen Seaway	<p>Development and patenting of a wet underwater welding method</p>
TransCanada Pipelines	<p>Evaluation of floating LNG-plants for use offshore Canada</p> <p>The negotiation of a farm-in to develop field in the UK sector, where Eboroil jointly owned technology with TCPL</p>
Treasure Offshore Production Systems	<p>Development and patenting of flexible riser system based on a catenary</p> <p>Developing and patenting co-mingling manifolds to produce field at the flowing wellhead pressure of best well</p> <p>Negotiation of farm-ins for 2 UK licences</p> <p>Presentation to the UK authorities of fit-for-purpose floating production technology</p>
Watson Drilling Services Ltd.	<p>Co-ordination of a number of exploration wild-cat wells in UK waters</p>
Udmurt Oil Company, Udmurtia, Russia	<p>Planning of technical and financial management of an 85 MUSD development of three oilfields in Udmurtia, Russia</p>
Watercraft Offshore Canada	<p>Marketing and concept development for amphibious vehicles to perform seismic and logistics in ice and permafrost</p>

Project List (continued)

CLIENTS

PROJECTS

Wilh. Wilhelmsen, Oslo

Design of the bulk systems for Treasure Hunter, Treasure Seeker and Treasure Finder

Operations manuals for Treasure Hunter

General marketing for the offshore division, including contract preparation and technical interfacing with clients

Technical and financial strategy for the Wilhelmsen group's investments in the offshore drill rig and ship markets

Vessel co-ordination of drilling systems with Treasure Saga and Treasure Scout

Co-ordination of rig- conversion of Seaway Swan to Treasure Swan using Treasure Finder drilling package

Concept development of Treasure Hunter as a tender for Esso's Odin development

Co-ordination of conversion of Treasure Hunter's oil field systems for the Odin-contract

Wilrig A.S

Comparison of operating costs in different areas of the world for the Wilrig fleet

Debugging computer systems for spare parts control and planned maintenance
